Checklist Chart Template v1/14/18

Federal consent to share information with treatment provider PIVV status PIBSAB, HBCAB, HBSAB PIBEPABLE CANDERS PIBEPABLE PIBEPABLE CANDERS PIBEPABLE PIBEPABL	Element	Date	Comments
provider HIV status HBsAg, HBcAb, HBsAb Hepatitis C antibody HCV viral load and genotype (if indicated) Hepatic Function Panel Serum Creatinine Institutional drug testing policy reviewed Plan of Safe Care introduced Behavioral Health Needs assessment / Care Management referral Risks of non-prescribed drugs and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed /offered Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review Institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	Federal consent to share		
HIV status HBSAB, HBcAb, HBSAb Hepatitis C antibody HCV viral load and genotype (if indicated) Hepatic Function Panel Serum Creatinine Institutional drug testing policy reviewed Plan of Safe Care introduced Behavioral Health Needs assessment / Care Management referral Risks of non-prescribed drugs and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed / offered Third Trimester Repeat HIV, HBSAB, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	information with treatment		
HBsAg, HBcAb, HBsAb Hepatitis C antibody HCV viral load and genotype (if indicated) Hepatic Function Panel Serum Creatinine Institutional drug testing policy reviewed Plan of Safe Care introduced Behavioral Health Needs assessment / Care Management referral Risks of non-prescribed drugs and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed / Offered Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review Institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	provider		
Hepatitis C antibody HCV viral load and genotype (if indicated) Hepatic Function Panel Serum Creatinine Institutional drug testing policy reviewed Plan of Safe Care introduced Behavioral Health Needs assessment / Care Management referral Risks of non-prescribed drugs and alcohol discussed Marijuana counseling/treatment Narcan discussed / Offered Third Trimester Repeat HIV, HBSAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	HIV status		
HCV viral load and genotype (if indicated) Hepatic Function Panel Serum Creatinine Institutional drug testing policy reviewed Plan of Safe Care introduced Behavioral Health Needs assessment / Care Management referral Risks of non-prescribed drugs and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed /offered Third Trimester Repeat HIV, HBSAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	HBsAg, HBcAb, HBsAb		
Hepatic Function Panel Serum Creatinine Institutional drug testing policy reviewed Plan of Safe Care introduced Behavioral Health Needs assessment / Care Management referral Risks of non-prescribed drugs and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed / offered Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	Hepatitis C antibody		
Hepatic Function Panel Serum Creatinine Institutional drug testing policy reviewed Plan of Safe Care introduced Behavioral Health Needs assessment / Care Management referral Risks of non-prescribed drugs and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed / offered Third Trimester Repeat HIV, HBSAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	HCV viral load and genotype		
Serum Creatinine Institutional drug testing policy reviewed Plan of Safe Care introduced Behavioral Health Needs assessment / Care Management referral Risks of non-prescribed drugs and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed / offered Third Trimester Repeat HIV, HBSAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	(if indicated)		
Institutional drug testing policy reviewed Plan of Safe Care introduced Behavioral Health Needs assessment / Care Management referral Risks of non-prescribed drugs and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed /offered Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	Hepatic Function Panel		
policy reviewed Plan of Safe Care introduced Behavioral Health Needs assessment / Care Management referral Risks of non-prescribed drugs and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed /offered Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Preastfeeding Pain management Family Planning Pediatrician identified	Serum Creatinine		
policy reviewed Plan of Safe Care introduced Behavioral Health Needs assessment / Care Management referral Risks of non-prescribed drugs and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed /offered Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Preastfeeding Pain management Family Planning Pediatrician identified	Institutional drug testing		
Behavioral Health Needs assessment / Care Management referral Risks of non-prescribed drugs and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed /offered Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified			
Needs assessment / Care Management referral Risks of non-prescribed drugs and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed /offered Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	Plan of Safe Care introduced		
Management referral Risks of non-prescribed drugs and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed /offered Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	Behavioral Health		
Management referral Risks of non-prescribed drugs and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed /offered Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	Needs assessment / Care		
Risks of non-prescribed drugs and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed /offered Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified			
and alcohol discussed Marijuana counseling Tobacco counseling/treatment Narcan discussed /offered Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified			
Tobacco counseling/treatment Narcan discussed /offered Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified			
Tobacco counseling/treatment Narcan discussed /offered Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	Marijuana counseling		
Narcan discussed /offered Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified			
Third Trimester Repeat HIV, HBsAg, HCVAb GC/CT Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified			
Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	Third Trimester		
Ultrasound (growth/fluid) Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	Repeat HIV, HBsAg, HCVAb		
Urine toxicology with confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	GC/CT		
confirmation, (consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	Ultrasound (growth/fluid)		
(consent required) Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	Urine toxicology with		
Ethyl glucuronide/ethyl sulfate (alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	confirmation,		
(alcohol metabolites) Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	(consent required)		
Third trimester education Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified			
Review Plan of Safe Care Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	(alcohol metabolites)		
Review institutional drug testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	Third trimester education		
testing policy NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	Review Plan of Safe Care		
NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	Review institutional drug		
NAS/newborn care Breastfeeding Pain management Family Planning Pediatrician identified	testing policy		
Pain management Family Planning Pediatrician identified	NAS/newborn care		
Family Planning Pediatrician identified	Breastfeeding		
Family Planning Pediatrician identified	Pain management
