

Caring for the Mother/Baby Dyad during the COVID Era

Course Description

This course offers obstetric and pediatric providers, nurses, lactation consultants and other team members up-to-date information and support on the COVID-19 pandemic. A multidisciplinary panel of specialists will share latest developments and guidelines, discuss management of patient cases presented by participants and answer questions during the hour-long sessions. Developed in partnership with NNEPQIN.

Who Should Attend

Maine, Vermont & New Hampshire Perinatal Care Teams

Schedule

Sessions will be held every Thursday from 12:00-1:00pm starting May 7th through June 4th.

Submit your cases across the perinatal/neonatal continuum of care to help guide the discussion:

Registration Information

To register, visit: <https://connect.echodartmouth-hitchcock.org/Series/Registration/273>

Please note: This course has limited enrollment. Registrations will be accepted on a first-come, first-served basis.

What is Project ECHO?

Project ECHO (Extension for Community Healthcare Outcomes) is a telementoring model. Virtual technology is used to support case-based learning and provide education. This will assist participants to care for more people, right where they live.

Benefits

- Participants learn from experts.
- Participants learn from each other.
- Experts learn from participants as best practices emerge.

Moving Knowledge, Not People
